## Video Studio

For the last several weeks we have been sound proofing the Video Studio at GILLBT. This is where we have been recording to this point audio Bible tools to help make the scripture available to a bulk of the people who live in the villages who cannot read and write in their mother-tongue language. This allows us to expand into video recording Bible tools. Everyone has a phone that allows us to load the scripture in their mother tongue language on their phone for them to listen to and now watch Bible tools. Having carpet installed was the last piece of the sound proofing project. Finding carpet and someone who knew how to lay it was a difficult process. But praise God soon we can begin using it to provide quality video recordings thanks to your partnership. These tools also help our DMM's grow and flourish

giving disciple makers the videos training tools also available on their phones. All that is left is hanging the black drapes for background on one wall and green screen on the other. While in the US I will be purchasing additional lights, cameras and equipment that we can afford this year and hopefully sometime next year we will be able to finish purchasing the rest of the needed equipment. We will also be bringing a trainer from Good News Productions, Intl., who directs one of their studios for additional training of our technicians. This has proven to be such a strategic piece of the Disciple Making Movements success.

We will be reporting the DMM stats after we get back in December. Much to do between now and then.

Greetings from Ghana. We can't believe it is only two weeks until we head back to the States for a short visit. We are anxious to see everyone and catch up on what God has been doing in your lives. I do hope that we can connect. We don't have phone numbers until we get there but as soon as we get them we'll let you know how to get in touch with us. You can always email or FaceBook messenger us and we are on WhatsApp if that helps. :) Everyone uses the app here, but not many in the States.

Here's some of the plans. Let us know how we can connect.

Blessings,  
Amy

**FROM THE PRESIDENT**

Fresh and Living Water for TierraMia

Earlier this year, we told about a remote village of 2000 in deepest Africa where Team Expansion-trained workers had led a village headman, Jeferson, along with his wife, Nadia, to Christ. Because the area had always been without water, Jeferson and Nadia began to pray that God would help them make a well. Through lots of friends, God has now provided. The project has already reached 60 concrete-encased meters in depth. The workers anticipate striking water in the next few weeks. Meanwhile, Jeferson and Nadia have shared their story and God's story with others, resulting in five new baptisms and the establishment of the first-ever young, simple church in TierraMia. We thank God that, through your prayers and partnership, a small band of believers in a remote village in Africa can help their entire village with fresh water and drinking water for all time.

*Doug*

Our DMMer team continues to grow.
