

The country leader for the Disciple Making Movements (DMMs) recently died and Moses traveled there to attend his funeral.

I am attaching a copy of the report of his visit which was quite impressive what God has been doing in Burkina Faso. <https://internationalafricanmobilization.com/wp-content/uploads/2021/09/Blurred-MOSES-BURKINA-SEPTEMBER-2021.pdf>

In an attempt to start tracking the progress we are making in launching DMMs I have been putting together various Excel spreadsheet reports. The first report shows how many groups we have in various segments in Gonjaland and by country. At the bottom of this report it shows the total number of groups, total number of people attending weekly disciple house churches, the % of people who have not been baptized, % of people who are baptized, % of people in groups that have an accountability partner that is committed to reading 25 chapters of scripture weekly and meeting together weekly to ask personal accountability questions, % of groups that are functioning as churches and concluding with % of groups that are multiplying.

Total Groups - 3400

Total Weekly Attendance - 23104

People Not Baptized - 30%

People Baptized - 70%

People in Accountability Groups - 28%

Groups functioning as church - 40%

Groups that are multiplying - 12%

Here are measurements indicating groups are functioning as a church

The second report (still in progress) shows the tribes we are reaching with the least reach tribes bolded and what country they are located in.
