

For the past 1 1/2 years Amy has been leading a Fidelis Cohort with Isaac and several others of our DMM leaders. Fidelis Project was founded by Dr. Frank Schattner who spent many years doing DMMs in Southeast Asia. It has been an intensive project but will pay huge dividends for the Kingdom. The degree is accredited by Calvary International Biblical Academy, College and University. It is a part of the ministry outreach of Central India Christian Mission. Its university has 13,000 students. Isaac worked very hard for this degree. He read 44 books, watched hundreds of videos and audio lectures, memorized 226 scripture verses (69 Old Testament and 157 New Testament) and attended 130 hours of weekly two-hour cohort discussions.

I have given you a link to Dr. Frank's address to the students where Isaac was among the first three graduates of this Fidelis Master's Degree Program in Obedience based leadership training. The five core elements of the degree were 1. Biblical Theology 2. Spiritual Formation 3. DMMs 4. Public Policy 5. Personal Wellness

The Zoom graduation was facilitated by Josh Howard and interpreted by Dr. Ajai Lall.

After the graduation we had a graduation celebration here at the Center. Isaac invited several key people in his life and we celebrated this great accomplishment together. God is doing great things through this man.

Again, we say thank you for your faithful partnership that has made this possible.

May God be glorified!
