

Merry Christmas and Happy New Year!

As 2022 rapidly comes to an end and we reflect back we are thankful to God for His gift to mankind that we celebrate this time of the year. We praise Him for allowing us to be used by Him to share Him with a world very much in need of hope and we thank you for making that possible.

We are settled now in California and continue to catalyze Disciple Making Movements (DMMs) from here. Tomorrow, Christmas day, we meet with some DMMers in the Bay area to see what we can do to help.

We continue meeting weekly with Isaac and the studio team in Tamale via Zoom. God continues to amaze us as we watch Him at work. Many new discipleship house churches have been started as well as new baptisms. As soon as I get Isaac's year-end report, I will let you know the total. Within the last few months, he has been in Senegal doing DMM training and just a couple of weeks ago he returned from a trip to India to learn from the DMM work going on there. He came back encouraged and motivated to do more on the continent of Africa to ignite DMM bushfires.

Amy's work leading Fidelis cohorts with Africans and her Media2Movements work with Facebook ads will continue remotely. Also, our Zume coaching will continue. As we train and identify those willing to implement, then we can connect them with other fruitful DMMers so they can collaborate together how best to fulfill the great commission in our generation.

Of course, Satan has brought great opposition but we are on the winning side and when we remain faithful God allows us to witness another breakthrough take place.

Amy and I have both identified doctors in Morgan Hill and have begun the labs needed to improve our health. I, Terry, will have knee replacement surgery if my general practitioner can get me cleared by the cardiologist and my lab work comes back okay. Pray that it works out because it has become much more painful to move around.

Of course, we have enjoyed eating dinner 3 or 4 nights a week with our son, daughter-in-law and one year old granddaughter,

Our daughter and son-in-law will drive over from Flagstaff the day after Christmas to spend a couple of days with together.

We love you all and thank you for supporting us prayerfully and financially. Merry Christmas to you and yours.

May God be glorified!

Terry and Amy
