

Update on the great work being done by the Tamale Studio

Moses and Emmanuel at the studio are doing great. We just talked to them yesterday morning and they were in the village of Chereponi finishing up a Jesus Film recording. Jesus Film just recently delivered some new equipment because they are doing so many recordings. Click the following link <https://www.dropbox.com/s/kafwkntgu83549t/JESUS%20FILM%20Medium%20res.mp4?dl=0>) to check out Jesus Film in English. **It is hard to explain how important what they are doing because without these tools 80% of the people don't have access to the gospel in their mother-tongue languages.**

They have recorded the most "Walking With Jesus" films in African languages than any other studio for Jesus Film. Here is a "Walking With Jesus link" <https://www.dropbox.com/sh/ikmhjttr1bwau4i/AAD8YPiJxTuVxeSkfz7sk9vba?dl=0>) so you can view a sample of what they are like and why they are so effective in the African context.

Next week they will be back at the studio in Tamale and recording a 20-story set Trans World Radio (TWR) in the Awutu language. Here is a link to Share The Story (TWR) https://www.dropbox.com/sh/ur274i3f5b18uuk/AAD26_KD1vIFGkN6GAi5Gq96a?dl=0) to some of the stories in Arabic with English subtitles.

They also told us that the "Seed Ministry" organization has just asked them to record the Old Testament in 6 different Ghanaian northern region languages. That will help keep them busy for quite some time. Here is a link to sample an Old Testament audio file in Gonja https://www.dropbox.com/s/uwaepimgopju87h/01_Gonja_OT_%20Genesis%2001.mp3?dl=0)

They are also working on a budget for what it will cost to record the Good News Productions 107 story set per northern region language. [Link GNPI 107 stories in English](https://www.dropbox.com/sh/lvt2prqjhepgcp0/AAAdNpJ_POwnkLNj06o6BuHha?dl=0)

Update on Terry's health

Terry continues working on his health issues with a team of doctors. In addition to continuing to work with the Cardiologist, Endocrinologist, Primary Care Doctor & knee surgeon, Terry has also seen a Neurologist to check the nerve damage in his legs and feet and Vascular Doctor to have a sonogram on the arteries in his legs to check the circulation in his legs and feet. The Neurologist put Terry on some meds to help with the severe neuropathy in his feet. The Vascular doctor said the circulation in his legs and feet are good for knee replacement. Also Terry has also lost 22 lbs and through his diet has his sugar under the best control for years.

Please pray for his appointment with his Primary Care Doctor this Friday, April 28th and his knee surgeon on Wednesday, April 3rd. I am so ready to have knee surgery to get relief from the pain.

We covet your prayers regarding the above and thank you for partnering with us over the years. We couldn't do this without your partnership.
